ARULAPPAN

Senior Full Stack Developer | Flutter · Angular · Node.js · Firebase

+91 90478 41104 | vijayarulappan@gmail.com | Chennai, Tamil Nadu, India

PROFILE SUMMARY

Senior Full Stack Developer with 11+ years of experience designing, building, and shipping cross-platform mobile and web applications end to end. Deep expertise in Flutter, Angular, Node.js, Firebase, and MongoDB, with a strong track record across Fintech, Healthcare, E-Commerce, Safety, and Equipment Management domains. Experienced in architecting scalable backend services, integrating payment and real-time systems, and taking products from requirement gathering through to release on the Google Play Store and Apple App Store. Comfortable leading development, running code reviews, and working directly with clients and stakeholders.

KEY STRENGTHS

- End-to-end product delivery — requirement gathering, architecture, development, testing, and dual-store deployment
- Cross-platform mobile engineering in Flutter with GetX, Provider, Riverpod, and BLoC state management
- Scalable backend and REST API design using Node.js, NestJS, Express, MongoDB, and Firebase Functions
- Payment gateway, real-time, and third-party integrations (UPI, GPS, Google Maps, push notifications)
- Agile / Scrum delivery, CI/CD workflows, code reviews, and clean coding practices
- Test-driven development with Jest and Postman; performance debugging and database query optimisation
- Technical documentation — API docs, architecture diagrams, and client-facing estimates

TECHNICAL SKILLS

Languages: Dart, JavaScript, TypeScript, SQL
Mobile: Flutter (GetX, Provider, Riverpod, BLoC), Android, iOS, Play Store & App Store deployment
Frontend: Angular, HTML5, CSS3, Bootstrap, Material Design
Backend: Node.js, NestJS, Express, REST APIs, Firebase Cloud Functions
Databases: MongoDB, Firebase Firestore, MySQL, SQL / NoSQL
Cloud & DevOps: Firebase, Google Cloud Platform, Docker, CI/CD
Testing & Tools: Jest, Postman, Git, GitHub, VS Code, Android Studio
Practices: Agile (Scrum), TDD, Code Reviews, Technical Documentation

PROFESSIONAL EXPERIENCE

Ruah Tech Solutions — Senior Full Stack Developer

October 2021 – Present

Axlerate Fintech — Fleet Expense & Management Platform

- Architected and built scalable backend services using Node.js, Express, and MongoDB
- Implemented UPI payments, a reconciliation engine, and end-to-end invoice automation
- Developed operational dashboards in Angular consuming secure REST APIs
- Integrated GPS tracking, fuel card, and FASTag workflows across the platform
- Led code reviews and raised overall code quality standards across the team

Tech Stack: *Node.js, Express, MongoDB, Angular, Firebase*

I'm Safe — Women's Safety Application

- Developed real-time SOS APIs and reliable background GPS tracking for Android and iOS
- Implemented real-time communication and alerting using Firebase
- Integrated Google Maps, push notifications, and secure authentication flows

Tech Stack: *Flutter, Node.js, Angular, MongoDB, Firebase*

Yellow And Gray Pvt. Ltd — Full Stack Developer

March 2018 – September 2021

Everest — Employee Salary Management System

- Built salary processing modules covering overtime, attendance, and deductions
- Designed optimised database models and reporting engines for payroll analytics
- Ensured reliability through structured testing and input validation

Tech Stack: *Node.js, Angular, Flutter, Firebase*

Electromech — Equipment Testing System

- Designed the complete solution architecture from the ground up
- Developed REST APIs for equipment testing and compliance workflows
- Standardised local and staging environments using Docker

  Tech Stack: *Angular, Node.js, Flutter, Firebase, Docker*

Fabsys Technologies Pvt. Ltd — Software Developer *December 2014 – February 2018*

Student Management System

- Built a complete student data management web application using JSP and Servlets
- Delivered modules for enrolment, fee tracking, attendance, and reporting
- Designed a normalised MySQL schema with optimised queries for reporting performance
- Created admin dashboards with secure role-based access management

  Tech Stack: *Java, JSP, Servlets, MySQL, HTML, CSS, JavaScript*

EDUCATION

Course	Specialization	University / Institution	Year	Score
MCA	Computer Application	Loyola Institute of Technology, Chennai (Anna University)	2011–2014	73%
B.Sc.	Computer Science	Meenakshi Ramasamy Arts & Science College, Ariyalur (Bharathidasan University)	2008–2011	68%
HSC	Higher Secondary	Don Bosco Higher Secondary School, Varadarajanpet (State Board)	2008	74%
SSLC	Secondary School	Don Bosco Higher Secondary School, Varadarajanpet (State Board)	2006	73%
